Introduction

Leadership Building Academy (LBA), an initiative of **Concern Nepal**, is dedicated to empower the youths of Nepal to become the political leaders of tomorrow. Concern Nepal, known for its commitment to research and consulting, launched this academy to bridge the leadership gap in Nepal's political landscape. We understand that for any nation to thrive, visionary leaders are essential. The Political Leadership Training program is designed to equip young aspiring leaders with the knowledge, skills, and mentorship necessary to guide Nepal into a prosperous future.

Program Overview

The Political Leadership Training is a month-long program featuring 9 sessions where parliamentarians, professors, politicians, and practitioners share their experiences and insights with participants. This training is tailored for youth who are passionate about leadership, governance, and politics.

Vision for the Future

- 1. Build Future Leaders:** To develop a cohort of young leaders who will eventually lead Nepal, contributing to the country's political, social, and economic transformation.
- 2. Mentorship for Electoral Politics:** To mentor participants who will be at the forefront of electoral politics in Nepal, providing them with essential tools for running for office and excelling in political roles.
- 3. Exchange of Ideas:** To create a platform where participants can exchange ideas with seasoned political leaders, gaining practical insights and expanding their perspectives.
